EDUCATION

Bachelor of Computing, Honours, Software Engineering 2026
University of Guelph | Guelph, ON

- Relevant Coursework: Software Design, Data Structures, Object-Oriented Programming, Database Systems

SKILLS

Languages: Python, Java, TypeScript, JavaScript, C#, C, SQL, Lua
Technologies: React, HTML/CSS, Spring Boot, WPF, PyQt, Docker, Git, GitHub Actions, PostgreSQL, MariaDB, SQLite

EXPERIENCE

Freelance Developer 2016 - Present

- Developed Lua gameplay systems, user interfaces, and player-facing features for Roblox projects.
- Integrated persistent data storage APIs for player progress and in-game systems.
- Contributed to a collaborative game project that reached over 10,000 monthly active users.

PROJECTS

ReQuizle Nov 2025 - Present

- Built a local-first spaced-repetition study app using React and TypeScript.
- Added mastery tracking, multiple question types, import and export tools, and PWA support.
- Stored user data locally in the browser using IndexedDB.

UniDetect May 2025

- Built a browser-based utility for detecting and cleaning hidden Unicode characters in uploaded documents.
- Added local processing for PDF, DOCX, TXT, and Markdown files using React, TypeScript, PDF.js, and Mammoth.js.
- Added automated tests with Vitest and a Docker-based development setup.

Urban Housing Demand Jan 2025 - Apr 2025

- Collaborated on a full-stack dashboard for exploring housing, labour, and immigration data.
- Worked with React, TypeScript, Spring Boot, Java, MariaDB, Python, and Docker.
- Project included interactive visualizations and a containerized development setup.

Hostage Chess Sep 2024 - Dec 2024

- Developed a multiplayer web implementation of Hostage Chess with a custom Python rules engine.
- Implemented server-side move validation, matchmaking, timers, and game history.
- Added automated tests for game rules and edge cases.

Password Generator Sep 2023

- Built a Windows desktop password generator using C#, .NET 8, WPF, and MVVM.
- Added configurable password rules and real-time strength evaluation using Zxcvbn.
- Implemented theme support and unit tests.

EXTRACURRICULARS

Awards

- University of Guelph Entrance Scholarship Fall 2021
- Dean's Honours List Fall 2021, Summer 2025, Fall 2025, Winter 2026

Clubs

- Guelph Coding Community Fall 2023 - Winter 2026
